

Raymond Zhang

CAREER OBJECTIVE

Passionate, attentive online detective aspiring to be a SOC Analyst. Interested in maintaining system structure, stability, and security through extensive log analysis. Foundational knowledge of networks, cryptography, and ethical hacking demonstrated through vocational training in the Academy of Computer Science at the Morris County School of Technology.

SKILLS

Python | Java | C++ | Bash | Wireshark | Persistence | Teamwork | Communication | Adaptability | Attention to detail

EXPERIENCE

Volunteer Support Agent

Digital Ingot, Inc. - Remote

July 2024 - December 2024

- I served as a member of the ticket support team, assisting in the completion of 100+ tickets through a designated ticket panel. Additionally, I debugged user issues such as outdated versions, incompatible modifications, and visual concerns through thorough analysis of individual log files.

CTF Competitor

Remote

March 2025 - Present

- Ranked 27th out of 422 teams — Garden State CTF 2026
- Ranked 89th out of 1,800 U.S. middle/high school teams (773rd globally out of 10,000) — picoCTF 2025
- Ranked 58th out of 1,344 U.S. middle/high school teams (280th globally out of 8,747) — picoCTF 2026

Support Engineer

AAAA Sim Racing LLC - Livingston, New Jersey

2023 – Present

- Assisted in trailer setup with the team, including unstrapping simulator seats, attaching monitors, and preparing essential equipment for 10+ events across New Jersey, Pennsylvania, and Connecticut. In addition, I performed structured cable management and ensured all PCs were properly powered, connected, and fully operational.

EDUCATION

Morris County School of Technology — Vocational Program in Computer & Informational Science

2023 - 2027

Relevant Coursework:

- Introduction to Java Programming, Foundations of Computer Science, Software Design, Computer Programming I, Computer Programming II, Emerging Technologies
